2023 Winter Class Schedule

T2R Foundations (All levels) – MONDAY 5:45PM – This circuit-style strength class is designed for both beginner and veteran runners and active adults. This class focuses on strength training using high intensity interval training workouts. The workouts are fast paced and will get your heart rate up. The main goal of the class is to offer an alternative form of aerobic training that mimics the same cardiovascular training effect experienced with running while also getting the body stronger and more resilient to injury. It is recommended that all participants for this class have the ability to perform cardio exercise for at least 30 minutes without stopping. **Register here**
